

Giotto

Conservatory
and terrace
awnings

An awning specifically designed for use on flat roof conservatories or pergolas

The feet of the Giotto are affixed directly onto the conservatory framework and glazing bars. When not in use the fabric retracts into a cassette.

Giotto Conservatory and terrace awnings

GIOTTO can be assembled using independent modules or directly joined modules: a system of springs located inside the front rail allows the fabric to be always tightened even at 0° of inclination. GIOTTO works only through a motorized system. Maxi dimensions are 500cm width and 500cm projection.

Wind resistance (at maximum dimensions)

Class tested by TÜV according to EN 13561:2004	1
Nominal test pressure p (N/m ²)	40

Overall dimensions and weight (1 pair of arms)

Width (cm)	500
Projection (awning open) (cm)	400
Approx. weight (kg)	120 - 130
