

All our canopies are made from cast aluminium fittings and high quality anodised aluminium extrusion. The shapes below are our standard range, however we are able to produce special designs on request.

A Small radius corner with short front arm

B Large radius corner with short front arm

C Bow blind

D Large radius corner

E Complete semi-circle

F Cupola awning

G Standard dutch with small radius corner

J Fixed canopy with vertical hoops

L Bow fronted approach awning

M Bull nose approach awning

P Fixed wedge type

R Fixed wedge type with box bottom

S Wedge type with apex

T Wedge type with apex and box bottom

V Triangular approach awning

VALANCE SELECTOR

The above shapes are only available for Weavetop. Orchestra acrylic canvas valances are only available in styles 6+10 and are finished with valance edging braid.
